

# What Do You Want From Me?

## This Is Not America

[Chorus]

What do you want from me  
What do you feel like  
What do you want me to be  
What do you feel like

[Verse 1]

If ever I'm bored again  
I wanna come back as a girl  
I'll come back as anything or anyone  
Whatever rocks your world

[Chorus]

What do you want from me  
What do you feel like  
What do you want me to be  
What do you feel like

[Verse 2]

I'll be your starlit night in the day  
I'll be your perfect roll in the hay  
I'll be your booze and your cocaine  
And you'll crave me again and again

[Chorus]

What do you want from me  
What do you feel like  
What do you want me to be  
What do you feel like

[Verse 3]

I never knew what I wanted  
I never knew what to be  
I n?ver was really clev?r  
Still, it feels just cool to be me

[Chorus]

What do you want from me  
What do you feel like  
What do you want me to be  
What do you feel like  
What do you want from me  
What do you feel like  
What do you want me to be

What do you feel like
