

Kill the Lights (with Nile Rodgers)

Alex Newell, Jess Glynne & DJ Cassidy

You set me free every time your hand's on me,
I wanna be your way and shine
I take the night, the feeling that you're giving me
You lit this box, and set it high Oh, no, don't run away from your life
Oh, no, don't turn away from the heart and the proof
From the way that we move,
Kill the lights, we can't lose! Kill the lights and look right at me
Close your eyes, you can see me by the way that I feel
Kill the lights, and touch my body
Close your eyes, you can see me by the way that I feel
Come and spin me around, let's get lost in the sound
Close your eyes, you can see me by the way that I feel
Touch my body, kill the lights tonight
Let's hit the light, tomorrow doesn't know what's coming
Don't try to hide it, let's have some fun
You can't rely on anything or anyone who fights the love you have inside
Oh, oh Oh, no, don't run away from your life
Oh, no, don't turn away from the heart and the proof
From the way that we move,
Kill the lights, we can't lose! Kill the lights and look right at me
Close your eyes, you can see me by the way that I feel
Kill the lights, and touch my body
Close your eyes, you can see me by the way that I feel
Come and spin me around, let's get lost in the sound
Close your eyes, you can see me by the way that I feel
Touch my body, kill the lights tonight
Kill the lights
(Kill the lights)
Close your eyes
(Close your eyes)
Kill the lights
(Kill the lights)
Close your eyes
(Close it, close it, close it) Kill the lights and look right at me
Close your eyes, you can see me by the way that I feel
Kill the lights, and touch my body
Close your eyes, you can see me by the way that I feel
Come and spin me around, let's get lost in the sound
Close your eyes, you can see me by the way that I feel
Touch my body, kill the lights tonight
