

# A Day in My Life

## Five Finger Death Punch

Another day in my life  
I live and die by the knife  
I swear there's nothing inside  
Sometimes I wish it would end  
How many hands could I shake  
How many smiles must I fake  
How many miles till I break  
To start all over again  
That's not what I was promised  
That's not me  
Feels like I'm falling away  
Getting deeper and deeper everyday  
like nothing has changed or ever will  
Seems like I'm going insane  
Getting farther and farther everyday  
I just swallow the pain  
And always will  
Welcome to a day in my life  
Welcome to a day in my fucking life!  
Unleashed the beast from its cage  
Feel like a puppet on stage  
It only adds to the rage  
I'm sick of trying to pretend  
They think I'm something I'm not  
I give them all that I got  
Feels like I'm sold to be bought  
It starts all over again  
That's not what I was promised  
That's not me  
Feels like I'm falling away  
Getting deeper and deeper everyday  
And like nothing has changed or ever will  
Seems like I'm going insane  
Getting farther and farther everyday  
I just swallow the pain  
And always will  
Welcome to a day in my life  
Welcome to a day in my fucking life!  
It feels like I'm falling away  
I'm getting deeper and deeper everyday  
And like nothing has changed or ever will  
Seems like I'm going insane

Getting farther and farther everyday  
I just swallow the pain  
And always will  
I just swallow the pain  
And always will  
Welcome to a day in my life  
Welcome to a day in my fucking life!
