

Let It Out Now

Leeland

It? s like you got to walk like him
Got to talk like her, got to be like them
Everybody knows you follow the crowd
Or get singled outBut God says who you are
Not the world or movie stars
Don? t you know
He holds the answers in His hands?We? re stuck in a system
Is there anybody different?
Is anybody listening?
Is anybody listening?Everyone has their own sound
Let it out now, let it out now
There? s nothing wrong with living loud
Let it out now, let it out now
I? m drawing the line between
Being them or being me
I? m not ashamed to call myself
One of Yours, LordBut it? s a narrow path
I? ve got to break from the pack
No turning back
No turning backWe? re stuck in a system
Is there anybody different?
Is anybody listening?
Is anybody listening?Everyone has their own sound
Let it out now, let it out now
There? s nothing wrong with living loud
Let it out now, let it out now
Yes, God? s looking for people
With a passion in their hearts
We? re God? s children
We need to shine bright
We need to shine brightEveryone has their own sound
And don? t you know all God? s children
Have their sound?Everyone has their own sound
Let it out now, let it out now
There? s nothing wrong with living loud
Let it out now, let it out nowEveryone, everyone
