Back Down

[Bob Moses](#)

[Verse 1]
Caught in the tide of our own divide
Our moment to make a stand
We're all in the fight for a future bright
It's burning inside our hands
Fell on a line on our own this time
We failed the forgotten man

[Pre-Chorus 1]
Your reality is our insanity
Our humanity is tearing at the seams

[Chorus]
Aaa-ah, never going back, never going back now
Aaa-ah, never gonna back, never gonna back down

[Verse 2]
Blinded by faith and devotion
Shade the fire inside our hearts
Ties that we've made have been broken by the
Lies that pull us apart
Time that we take will be stolen from a
Dream that was almost ours

[Pre-Chorus 2]
Your reality is our insanity
Our humanity is calling to be free

[Chorus]
Aaa-ah, never going back, never going back now
Aaa-ah, never gonna back, never gonna back down
Aaa-ah, never going back, never going back now
Aaa-ah, never gonna back, never gonna back down

[Bridge]
You and I
Turned away from the promise to try
You and I
Found our faith in the will of a lie

You and I

[Chorus]
Aaa-ah, never going back, never going back now
Aaa-ah, never gonna back, never gonna back down
Aaa-ah, never going back, never going back now
Aaa-ah, never gonna back, never gonna back down
