

# All Stars (feat. Alma)

[Martin Solveig](#)

Turn on  
We all stars, we are one  
We light up the night like a black sun  
We all shine, we are chrome  
And we are shimmering  
Turn on, turn on (turn on) Play it loud, we don't care  
And dance like there's nobody there  
Light up the night, yeah  
Light it up every night  
'Cause we are shimmering  
Turn on, turn on (turn on)  
We all stars, we are one  
We light up the night like a black sun  
We all shine, we are chrome  
And we are shimmering  
Come on, come on y'all Hey We all stars, we are one  
We light up the night like a black sun  
We all shine, we are chrome  
And we are shimmering  
Turn on, turn on (turn on) We got something to tell  
Spin like a carousel  
Don't like it, go to hell  
This is our favorite song  
Lights on everybody  
We party legendary  
High on sour and fury (hey)  
Turn on now  
Calling all stars, come on  
Calling all stars, come on  
Calling all stars, come on  
Calling all stars, come on Hey  
Hey We all stars, we are one  
Calling all stars (stars)  
Calling all stars, come on  
We all shine, we are chrome  
And we are shimmering  
Turn on, turn on (turn on) Calling all stars, come on
