

# How Come You're Not Here

P!nk

[Intro]

Where have you been?  
Where have you gone?  
And have I done something wrong?  
You're the Tooth Fairy  
You're like Santa Claus  
You're like white noise  
When I want my favorite song

[Verse 1]

Just come on back  
And come on home  
It ain't super smart to leave me alone  
Light a flare, pick up the phone  
I'm like a stoner babe without my bong

[Chorus]

Are you hiding in the closet?  
Are you underneath the bed?  
Did you go for a long walk off a short pier?  
How come you're not here?  
Should I worry you've been bitten?  
Or somebody got you high?  
Quick come back  
Or I might just die  
How come you're not here?

[Verse 2]

I've heard some rumors  
About another girl  
I heard she's cute  
But she stores nuts like a squirrel  
And that's all cool  
I'll wait right here  
'Til you get bored  
And she gets carded for beer

[Verse 3]

I'm the one  
I'm just that slick

You won't find better  
I'm honey dipped  
There ain't a thing  
That's fake on me  
I miss you baby  
Come home to me

[Chorus]

Are you hiding in the closet?  
Are you underneath the bed?  
Did you go for a long walk off a short pier?  
How come you're not here?  
Should I worry you've been bitten?  
Or somebody got you high?  
Quick come back  
Or I might just die  
How come you're not here?

[Bridge]

Has anyone seen?  
Has anyone seen?  
Has anyone seen why he's hiding from me?  
Can anyone see?  
Can anyone see?  
Can anyone see let's play hide and seek

[Chorus]

Are you hiding in the closet?  
Are you underneath the bed?  
Did you go for a long walk off a short pier?  
How come you're not here?  
Should I worry you've been bitten?  
Or somebody got you high?  
Quick come back  
Or I might just die  
Quick come back  
Or I might just die
