Simple Things (feat. Christina Perri)

Alexander Cardinale

Thinking about the night I first met you
Yeah, we were younger then
It all felt so newWe talk about building a house, old talk
But we had nothing then
But damn, we had it allBut life got in the way
Cause time has got a way
Of making you forget what matters most
But that's just how it goesThere's so much weighing on my brain
And I tend to overcomplicate
It's trying to imitate a different point of view
When I get back to the simple things with you
You love the ocean, why don't we just go?
Kick off your shoes and feel the sand under your toes
We fold the stars so I can watch you glow
Just can't stop looking, cause you're so damn beautifulMaybe we should stay
Cause I don't want to leave
What if we forget what matters most?
Do we really have to go?There's so much weighing on my brain
And I tend to overcomplicate
It's trying to imitate a different point of view
When I get back to the simple things with youDo do do do do do
Do do do do do
Do do do do do do
Do do do do do
Do do do do do, do
I, I, I
Want to get back to the simple things with you
So darling, may I, may I
May I have this dance with you?
With every single, drop of, life inside the glass
Why don't we lay right here
And waste a day or two?
When I get back to the simple things with youThere's so much weighing on my brain
And I tend to overcomplicate
Let's try to imitate a different point of view
When I get back to the simple things with youDo do do do do do
Do do do do do
Do do do do do do
Do do do do do
Do do do do do, do
I, I, I
Want to get back to the simple things with you (you, ooh)

Want to get back to the simple things with you
Want to get back to the simple things with you
Want to get back to the simple things with you
