

Party Favor

Cali Rodi

Verse 1

Black dress ready walk in confetti already on the floor
Your white t-shirt and your classic smirk ain't working like before
Those are some high expectations
For one drinking conversation
Don't think you got that invitation

PRE-CHORUS

A girl's not a party favor
Just cause you show up, can't take her home
You put on your best behaviour
Just so you don't leave here all alone..

CHORUS

It doesn't work like that
It's not yours for the taking
I know that you want it bad
I think it goes without saying
A girl's not a party favour

Verse 2

My cup is empty, yeah it's tempting but I am a smart girl
You're on a mission with conditions
You know you got in M.O
Those are somehow expectations
For one drinking conversation
Do you need clarification

PRE-CHORUS

A girl's not a party favor
Just cause you show up, can't take her home
You put on your best behavior
Just so you don't leave here all alone

CHORUS

It doesn't work like that
It's not yours for the taking
I know that you want it bad
I think it goes without saying
A girl's not a party favor

A girl's not a party favor
A girls not a party.....
A girls not a party.....favor

CHORUS

It doesn't work like that
Its not yours for the taking
I know that you want it bad
I think it goes without saying
A girl's not a party favor
A girl's not a party favor
A girl's not a party..... favor
