

My Enemy (feat. Matt Berninger)

CHVRCHES

[Verse 1: Matt Berninger]

I got no more time to hear what you think about me
Because all your words are so cold, so callous, so clean
In the moment you could be honest, you could wake up (up)
But your jealousy is more blind than love [Chorus: Lauren Mayberry]
And you could be my enemy
And you could be my judge
If you could start remembering all the time that you used up
And you could be my remedy
If you could show me love
If I could stop remembering all the time that you used up

[Verse 2: Matt Berninger]

I got no more time to hear who you think we should blame
Because all your words are so vile, so vicious, so vain
In the end, we did all the damage that you could want (want)
But the emptiness will go on and on [Chorus: Lauren Mayberry]
And you could be my enemy
And you could be my judge
If you could start remembering all the time that you used up
And you could be my remedy
If you could show me love
If I could stop remembering all the time that you used up

[Chorus: Matt Berninger & Lauren Mayberry]

And you could be my enemy
And you could be my judge
If you could start remembering all the time that you used up
And you could be my remedy
If you could show me love
If I could stop remembering all the time that you used up
