

# Illusion

## Dua Lipa

[Verse 1]

I been known to miss a red flag  
I been known to put my lover on a pedestal  
In the end, those things just don't last  
And it's time I take my rose-coloured glasses off

[Pre-Chorus]

I already know your type, tellin' me the things I like (Mm)  
Tryna make me yours for life, takin' me for a ride (Mm)  
I already know your type, think you play your cards right (Mm)  
Don't you know I could do this dance all night?

[Chorus]

Ooh, what you doin'?  
Don't know who you think that you're confusin'  
I be like, ooh, it's amusin'  
You think I'm gonna fall for an illusion

[Post-Chorus]

Dance all night, dance all night  
Dance all night, dance all night (I be like, ooh)  
Dance all night, dance all night  
Dance all night, dance, dance

[Verse 2]

Was a time when that shit might've worked  
Was a time when I just threw a match and let it burn  
Now I'm grown, I know what I deserve  
I still like dancin' with the lessons I already learned

[Pre-Chorus]

I already know your type, tellin' me the things I like (Mm)  
Tryna make me yours for life, takin' me for a ride (Mm)  
I already know your type, think you play your cards right (Mm)  
Don't you know I could do this dance all night?

[Chorus]

Ooh, what you doin'?  
Don't know who you think that you're confusin'  
I be like, ooh, it's amusin'  
You think I'm gonna fall for an illusion

[Post-Chorus]

Dance all night, dance all night  
Dance all night, dance all night (I be like, ooh)  
Dance all night, dance all night  
Dance all night, dance, dance

[Bridge]

Illusion

I really like the way you're movin'  
Yeah, I just wanna dance with the illusion  
Yeah, I just wanna dance with  
Yeah, I just wanna dance with  
I could dance all night (Woo)  
(Dance all night)  
(Ooh-ooh-ooh-ooh)

[Chorus]

Ooh, what you doin'?  
Don't know who you think that you're confusin'  
I be like, ooh, it's amusin'  
You think I'm gonna fall for an illu— (Illusion)  
Ooh-ooh, what you doin'?  
Don't know who you think that you're confusin'  
I be like, ooh, it's amusin' (Illusion, illusion, illusion, illusion)  
You think I'm gonna fall for an illusion
