

# Where the Heart Is

## HAEVN

### [Verse 1]

High above the tallest trees  
Courage will come your way  
It's the need that burns the trust that shines  
When you climb out of the shade

### [Pre-Chorus]

Your high awakes the things you wanna be  
Where the air is thin and sweeps you off your feet

### [Chorus]

Where the heart is  
When the light's at your side  
When the faith is ready  
No more guidance  
Take the leap of your life  
As the ground is shaking

### [Verse 2]

Shaking off your troubled soul  
As silence seems to grow  
It's the faith in sight, the doubt that fades  
As the world dissolves below

### [Pre-Chorus]

Your high awakes the things you wanna be  
Where the air is thin and sweeps you off your feet

### [Chorus]

Where the heart is  
When the light's at your side  
When the faith is ready  
No more guidance  
Take the leap of your life  
As the ground is shaking

### [Bridge]

You are falling to the stars, you are falling  
You are falling to the stars, you are falling  
You are falling to the stars, you are falling

You are falling to the stars, you are falling

[Outro]

Where the heart is  
When the light's at your side  
When the faith is ready  
No more guidance  
Take the leap of your life  
As the ground is shaking
