

Different Kind of Wonderful

Fisher

We never play

Kissy face in front of strangers

And we never run to each other in slow motion

No rolling around on the shore with sand between our toes

But I guess this is

A different kind of wonderful

-we're in love in the real world

It's not what I thought it would be but

I can't let this go

A different kind of happiness

-doesn't get more real than this

It's not what they said it would be but

I can't let this go

I didn't see

Anything in you when we first met

-when I believed I would fall in love at first sight

Night after night we bared our souls over coffee

Now I know I love you

A different kind of wonderful

-we're in love in the real world

It's not what I thought it would be but

I can't let this go

A different kind of blissfulness

-we can't get more real than this

It's not what they said it would be but

I can't let it go

I never saw the fireworks

-the stars didn't fall from the sky

But this is more beautiful than a quick flash

I never saw a rainbow

-the stars didn't fall from the sky

But this is more meaningful than a quick flash
