

# No Life Comes With a Happy Ending

## This Is Not America

[Chorus]

Don't bring me down  
No life comes with a happy ending  
We're all lost souls here  
Now let's start pretending

[Verse 1]

Isn't it a crying shame  
We're in the country with no name  
And streets are ending absolutely blind here  
Isn't it a crying shame  
We wasted all there was to gain  
And now, good old nothing  
Comes knocking

[Chorus]

Don't bring me down  
No life comes with a happy ending  
We're all lost souls here  
Now let's start pretending

And let's lose our heads  
And let's all fade away  
Have our bodies lead astray  
At least for a while

[Verse 2]

Isn't it a crying shame  
There's just no shelter from this pain  
I guess it's somewhat that we have to deal with

Isn't it a crying shame  
It seems that we're all done again  
It's probably the western way of life

[Chorus]

Don't bring me down  
No life comes with a happy ending  
We're all lost souls here  
Now let's start pretending  
And let's lose our heads  
And let's all fade away  
Have our bodies lead astray

At least for a while

Don't bring me down  
No life comes with a happy ending  
We're all lost souls here  
Now let's start pretending

And let's lose our heads  
And let's all fade away  
Have our bodies lead astray  
At least for a while
