

Little Emily

Kari Kimmel

She's been waiting for someone else to believe
She's been chasing after everybody else's dreams
She prayed to Elvis but he didn't feel like listening
Now she's going back to find that life she was trying so hard to leave
And she's saying good bye she's hawling ass down the freeway all alone
She's saying good bye she took her chance now this little girl's going home
After all this time and all this pain little Emily's going back
She's going back
She took chances she never thought she'd ever take
She lost herself out there it could've been a big mistake
She had all the time in the world and now she'll never get it back
Who cares she's getting out and she's got more now than she ever had
And she's saying good bye she's hawling ass down the freeway all alone
She's saying good bye she took her chance now this little girl's going home
After all this time and all this pain little Emily's going back
She's going back
She went too far no one to blame
She left her start she walked away
Emily had everything to lose
She took a fall she saw the truth
And she's saying good bye she's hawling ass down the freeway all alone
She's saying good bye she took her chance now this little girl's going home
After all this time and all this pain little Emily's going back
She's going back
And she's saying good bye she's hawling ass down the freeway
She's saying good bye she took her chance now this little girl's going home
After all this time and all this pain little Emily's going back
She's going back
She's going back
