

# Good Woman

Maren Morris

[Verse 1]

When you were young, there were some things  
You had planned out, a map of your dreams  
If some pull through, and if some fall away  
I promise to you, this one's gonna stay

[Pre-Chorus]

I'll sway like a tree when you need a change  
I'll travel the world or stay in one place  
I'll hold your hand when the storm's at the door  
'Cause you got my back and I got yours

[Chorus]

You've got the love of a good woman  
Yeah, you've got the love of a good woman

[Verse 2]

If you need my arms to hold you together  
They'll be right here to hold you forever  
Sometimes we won't know the road that we'll face  
But we'll get where we're going even if we're late

[Pre-Chorus]

I'll sway like a tree when you need a change  
No one'll speak the language we made  
I'll hold your hand when the storm's at the door  
'Cause you got my back and I got yours

[Chorus]

You've got the love of a good woman  
Yeah, you've got the love of a good woman

[Bridge]

I'll keep you warm beneath the sheets  
The weight of the world's got nothing on me

[Chorus]

'Cause you've got the love of a good woman  
Yeah, you've got the love of a good woman  
I'll sway like a tree when you need a change

We'll travel the world or stay in one place  
You've got the love of a good woman  
Yeah, you've got the love of a good woman
