

# Still

## Niall Horan

My mind is complicated  
Find it hard to rearrange it  
But I'll have to find a way somehow  
Overreacting lately  
Find it hard to say I'm sorry  
But I'll make it up to you somehow  
I just don't know why  
Stars won't shine at night  
Tell me you want it  
A thousand miles away from the day that we started  
But I'm standing here with you just trying to be honest  
If honesty means telling you the truth  
Well, I'm still in love with you  
That I miscalculate this  
Let's just go back to basics  
Forget about what's coming on  
'Cause I hate to see you stop this  
Breaking up and that's just like this  
We should be shooting for them stars of gold  
So tell me you want it  
A thousand miles away from the day that we started  
But I'm standing here with you just trying to be honest  
If honesty means telling you the truth  
That I guess we lost our focus  
And it's killing me that we could go to a war like this  
But I'm standing here with you just trying to be honest  
If honesty means telling you the truth  
Well, I'm still in love with you  
Oh-oh, we will be alright  
Oh-oh, it'll be alright  
And oh-oh, we will be alright  
Oh-oh, it'll be alright  
So tell me you want it  
A thousand miles away from the day that we started  
But I'm standing here with you just trying to be honest  
If honesty means telling you the truth  
I guess we lost our focus  
And it's killing me that we could go to a war like this  
But I'm standing here with you just trying to be honest  
If honesty means telling you the truth  
Well, I'm still in love with you
