

Why Did I Ever Like You

[P!nk](#)

[Verse 1]

Barabarabaraadada
There was a 5.8 earthquake today
And it kind of got me thinking
I would still have all my hate for you intact
Even if I lost everything

[Pre Chorus]

What did I say?
Why are you shaking your head?
You know you done me wrong
I may be crazy it's all in my head
But I want you done and gone

[Chorus 1]

Why did I ever like you?
What did I see?
Whatever it was must have been some kind of illusion
A magic trick on me

[Verse 2]

It's hard to believe I ever laughed at anything you said
Cause you're just not funny
Who would believe I'd let you do all those things
Oh, I guess the joke was on me

I tried to be zen
I've even asked all my friends
To help me let it slide
But all I see is your face
In my favorite place
And I can't help but wonder why

[Chorus 1]

Why did I ever like you?
What did I see?
Whatever it was must have been some kind of illusion
A magic trick on me

I tried to be zen

I've even asked all my friends
To help me let it slide
But all I see is your face
In my favorite place
And I can't help but wonder why

[Chorus]

Why did I ever like you?
What did I see?
Whatever it was must have been some kind of illusion
A magic trick on me
Tell me, why did I ever like you?
What did I see?
Whatever it was must have been some kind of illusion
A magic trick on me
