## No Sudden Movement

## **Five Finger Death Punch**

Live your life
Like your a demigod
You force your weight
On everything and everyone
The bars you live
Behind are made of straw
How do you see the world
When you're dead and gone
I dare not say what I want to say
No sudden movements
No sudden moves
I dare not say whats inside of me
Right
Between your eyes

Nowhere to hide

Click - clack reload

Click - clack unload

Life

Ain't on your side

You're out of time

Click - clack reload

Click - clack unload

You're a wolf

Hiding amongst the herd

You built a bridge

So you can watch it burn

Kick and scream

Your voice is never heard

Write down your complaints

And I'll act like I'm concerned

I dare not say what I want to say

No sudden movements

No sudden moves

I dare not say whats inside of me

Right

Between your eyes

Nowhere to hide

Click - clack reload

Click - clack unload

Life

Ain't on your side

You're out of time

Click - clack reload Click - clack unload No sudden movements No sudden moves No sudden movements No sudden moves No sudden movements No sudden moves Right Between your eyes Nowhere to hide Click - clack reload Click - clack unload Life Ain't on your side You're out of time Click - clack reload Click - clack unload
