

Must Be the Love

BT, ARTY & Nadia Ali

This must be the love
This must be the love
This must be the love
This must be the love I followed you until the end
And counted every step
I did not know what was to come
But still I tried and dreamt I wonder where I was before
I honestly can't say
This must be the love they speak of
In those myths I read This must be the love
This must be the love
This must be the love
When you know you've found the one to keep
Oh, we wonder how we did not see
Our eyes open when we found that love
And we heal
When you know you've found the one to keep
Oh, we wonder how we did not see
Our eyes open when we found that love
And we heal This must be the love
This must be the love
This must be the love
This must be the love Every moment with you near
I feel more alive
I could give this world away
To keep this endless high
The scars within my heart are fading
Bit by bit I'm healed
The more I let go, the more I am whole
This time it's for real Bit by bit I'm healed
Bit by bit I'm healed
Bit by bit I'm healed When you know you've found the one to keep
Oh, we wonder how we did not see
Our eyes open when we found that love
And we heal This must be the love
This must be the love
This must be the love
This must be... This must be the love
This must be the love When you know you've found the one to keep
Oh, we wonder how we did not see
Our eyes open when we found that love
And we heal

When you know you've found the one to keep
Oh, we wonder how we did not see
Our eyes open when we found that love
And we heal This must be the love
This must be the love
This must be the love
This must be the love
