

R U With Me

ASTR

[Verse 1]

Your [love?] all over
I can never be alone
[Gunshot we solo?]
Smoke to the ceiling
Wide awake next to me
No competition
Now are you with me
Are you with me now
And are you with me

[Chorus x2]

As long as we've got each other
We could be so much better
As long as we've got each other
Now are you with me

[Verse 2]

I can't believe it
You think you did me wrong
Left me, deceive me
All day and all night
Don't need a reason
Say you're playing hide-away
Fall into pieces
Now are you with me
Are you with me now
And are you with me

[Chorus x2]

[Bridge]

To live your life away
To live your life away

[Chorus x2 & Bridge]
