

Homiesexual

Tayla Parx

[Verse 1]

Been too busy last couple of weeks
Wanna get wavy, wanna look just like a beach
I'm tryna get high, balance out my lows
Tryna catch a vibe until I'm ready to go, oh

[Pre-Chorus]

Uh-huh, no more conversations
I don't feel like waiting, just wanna enjoy myself
Act like we in Vegas, promise you won't say shit
And that's just exactly why I only fuck with homies, I'm a homiesexual
But if I let you kick it, don't go feeling special
Got enough time for all of us to spend
I won't ever restrain you

[Chorus]

And all of my friends can come with me
You know that misery loves company
Sometimes that's all we need, so come with me
You know that misery loves company
Sometimes that's all we need, need, need
All we need, need, need
All we need, need, need
All we need, need, need

[Verse 2]

We do this and it ain't just for the 'Gram
Feeling patriotic and that ankle's Uncle Sam
Just like fireworks, the way we got it poppin'
Almost made me twerk, the way the beat was droppin'

[Pre-Chorus]

Uh-huh, no more conversations
I don't feel like waiting, just wanna enjoy myself
Act like we in Vegas, promise you won't say shit
And that's just exactly why I only fuck with homies, I'm a homiesexual
But if I let you kick it, don't go feeling special
Got enough time for all of us to spend
I won't ever restrain you

[Chorus]

And all of my friends can come with me
You know that misery loves company
Sometimes that's all we need, so come with me
You know that misery loves company
Sometimes that's all we need, need, need
All we need, need, need
All we need, need, need
All we need, need, need
