

# Warm (feat. HAIM)

Charli XCX

You gotta tell me the reason  
Why we can't fall in love  
You gotta tell me the reason (no, no) Why you won't open up  
Now I'ma send you to heaven  
Tequila on your tongue  
You gotta tell me the reason  
Why we can't fall in love Tell me the reason (yeah)  
Why we can't fall in love  
You gotta tell me the reason  
Why you won't open up  
Now I'ma send you to heaven  
Tequila on your tongue  
You gotta tell me the reason  
Why we can't fall in love  
Why, why, why  
Don't you lie  
What do you want?  
Fall in love, risk it all Tell me what you want  
'Cause I know that you're lonely on your own  
We're out in L.A. for a month  
I don't think I can hide my emotions no, no more (uh huh) A late night say you want me, say  
you're selfish  
Think about my body, then two-time  
Say you want her? Do you want her?  
Doesn't do it like me, no  
So hot, burn the place down  
Give you what you need  
So you gotta tell me the reason  
Why we can't fall in love  
You gotta tell me the reason  
Why you won't open up  
Now I'ma send you to heaven  
Tequila on your tongue  
You gotta tell me the reason  
Why we can't fall in love Why, why, why  
Don't you lie  
What do you want?  
Fall in love, uh huh, risk it all Make me wanna fall in love  
Baby, make mistakes  
Hit me with a champagne kiss  
And now I'm not thinking straight  
Look at the skyline high

I look up, I wish I saw your face  
I wanna fall in love Jump in the deep end  
'Cause deep down, you're d-dying  
Tell me you're kind of nervous  
Tell me you feel the same  
I wish it was more than surface  
I wish I could feel nothing  
Come give me everything  
Burn down and go again So you gotta tell me the reason  
Why we can't fall in love  
You gotta tell me the reason  
Why you won't open up  
Now I'ma send you to heaven  
Tequila on your tongue  
And you gotta tell me the reason  
Why we can't fall in love Ooh, baby  
(Why, why, why)  
Tell me, tell me, tell me the reason  
(Don't you lie, what do you want?)  
Tell me, tell me, tell me the reason  
(Fall in love, risk it all) (Tell me, tell me the reason)  
(You gotta tell me the reason)  
Tell me the reason  
Tell me the reason  
Tell me the reason  
(Tell me, tell me, tell me the reason, tell me the reason, tell me the reason)  
(Tell me the reason, tell me the reason, tell me the reason, tell me the reason)  
(Tell me the reason)
