

Dream You Never Had

Thomas Rhett

Our Friday are Mondays and our second home is on wheels
I told you I'd slow down but we both know I never will
Half of our nights baby, we spend 'em sleeping alone
"I gotta go" conversations and raising our kids through the phone I know it's been hard
I know it ain't easy
Oh but I couldn't do one show without you
Oh baby believe me
Crowds have been crazy
But baby I'm missing you bad
Just wanna say thank you for living this dream
I know you never had
I'm seeing the signs with your name written on in my mind
Spotlight's on me but they know you're the reason I shine
You married the music the day that you married me
Baby I'm just a singer and you are the songs that I sing I know it's been hard
I know it ain't easy
Oh but I couldn't do one show without you
Oh baby believe me
Crowds have been crazy
But baby I'm missing you bad
Just wanna say thank you for living this dream
I know you never had One doubt, even when I did
You stuck it out, baby I see you
In every town, even when you're so far away
I know it's been hard
I know it ain't easy
Oh but I couldn't do one show without you
Oh baby believe me
Crowds have been crazy
But baby I'm missing you bad
Just wanna say thank you for living this dream
I know you never had
Just wanna say thank you for living this dream
I know you never had
