

# Next Girl

Carly Pearce

Hey next girl, you don't know me  
I'm just the one he says went crazy on him  
That's just what he does But once upon a time I was  
The next girl, I've been where you're at  
You overlook a lot when he looks like that  
He'll charm your mama with that smile  
Hide the red flags for a little while I bet you probably met him at a bar  
Let him walk you to your car, I bet  
He said he never falls this hard  
Yeah, I remember that part  
He knows how to say all the right things  
Knows how to get you outta that dress  
Knows how to make you think you're the best thing  
But I know what happens next, girl  
Hey next girl, you think that you know better  
Maybe the last girl was just a little bitter  
And jaded, yeah, there ain't no doubt  
But if he ever talks about the ex-girl  
She tried like hell, it was too late to save herself  
So now she's just trying to help the next girl I bet you probably met him at a bar  
Let him walk you to your car, I bet  
He said he never falls this hard  
Yeah, I remember that part  
He knows how to say all the right things  
Knows how to get you outta that dress  
Knows how to make you think you're the best thing  
But I know what happens next  
You're gonna think it's all your fault  
It's just a switch that he turns off  
He'll make you think it's love  
But I promise you, it's not  
Oh no, it's not, no Oh, I bet you probably met him at a bar  
Let him walk you to your car, I bet  
He said he never falls this hard  
Yeah, I remember that part  
He knows how to say all the right things  
Knows how to get you outta that dress  
Knows how to make you think you're the best thing  
But I know what happens next, girl
