

Next Go Round

Nickelback

[Verse 1]

I wanna do it 'til the sun comes up
'Til we're both so good and sweaty we can't stand up
I wanna do it till we're both about to drop
As long as we're caught in together, we're never gonna stop

I wanna go until the neighbors all complain
'Cause they heard somebody screaming and they think we're both in pain
I wanna go so long your parents think you died
They're gonna call the cops, the CIA, and then the FBI

[Chorus]

Yeah, we're gonna love it when the lights go down
(Hold on, here we go)
Yeah, we're gonna go until our legs give out
(Round and 'round we go)
Yeah, we're gonna do it hanging upside down
(Up and down we go)
Yeah, we're getting ready for the next go 'round
'Round and 'round we go

[Verse 2]

Shut the windows, lock the doors, unplug the phone
For all intents and purposes, there ain't nobody home
Then we can do it till the batteries are gone
And borrow two from the TV remote to throw this thing back on
I wanna cover you with jello in the tub
We can roll around for hours without ever coming up
I want you naked with your favorite heels on
Slap John Deere across my ass and ride me up and down the lawn

[Chorus]

Yeah, we're gonna love it when the lights go down
(Hold on, here we go)
Yeah, we're gonna go until our legs give out
(Round and 'round we go)
Yeah, we're gonna do it hanging upside down
(Up and down we go)
Yeah, we're getting ready for the next go 'round

'Round and 'round we go

[Solo]

[Chorus]

Yeah, we're gonna love it when the lights go down

(Hold on, here we go)

Yeah, we're gonna go until our legs give out

('Round and 'round we go)

Yeah, we're gonna do it hanging upside down

(Up and down we go)

Yeah, we're getting ready for the next go 'round

'Round and 'round we go
