

# Drowning Butterflies

## Bipolar Sunshine

Give me the chance and I go  
You pulling me in and I know  
You know where the touch  
The force in the rush, you really kidding, baby, all I feel lifted off the floor  
Call me then doubt what I saw  
I was in the box, laying in the dust  
But I wanted you more My fame, my pain  
My soul you take  
Boy, I'll keep on  
Know my everything My drink, my heart  
It's black and dark  
Reaper, in it for life  
But are we, but are we  
Drowning Butterflies  
Forever swimming in circles  
But are we, but are we?  
Drowning Butterflies  
Forever swimming in a line Pain and lust is at the core  
I try on a limb but I fall  
Till you see my light  
More than want to know  
Are you gonna call? You all in my blood and you leave  
Taking my heart from my sleeve  
Leave me to rust, you're only dust  
But I want you more My drink, my heart  
It's black and dark  
Reaper, in it for life  
But are we, but are we  
Drowning Butterflies  
Forever swimming in circles  
But are we, but are we?  
Drowning Butterflies  
Forever swimming in a line We lost it all  
Far away, far away  
Just in love with it all  
Think that we are off this safe But are we, but are we  
Drowning Butterflies I wanna get away, I'm gonna get away  
And leave soon  
I wanna run away, run away  
I wanna run away  
I'm gonna get away  
And leave soon

And fly straightBut are we, but are we  
Drowning Butterflies  
Forever swimming in circles  
But are we, but are we?  
Drowning Butterflies  
Forever swimming in a lineWe lost it all  
Far away, far away  
Just in love with it all  
Think that we are off this safeBut are we, but are we  
Drowning Butterflies
