

# American Kids

## Poppy

[Verse 1]

I live under a rock with a blacklight  
I'm a dumb pop star in my own right  
Started life at age 15, got ahead with fake IDs  
If you're with me  
Sold my soul to the man with a handshake  
Lost control but I don't think it's too late  
We're dying young on broadcast news  
Forever 21 is cool if I make it

[Pre-Chorus 1]

Girls, let's put on all of our clothes

[Chorus]

I don't wanna be like American kids  
I am not on drugs and I've never been  
I don't care about your party, I belong to nobody  
I don't wanna be like American kids  
Drugs don't work like they did for my parents  
I'm not down with the new hit  
'Cause today I just don't get American kids

[Verse 2]

Last time I told mom that "I love you"  
Was the last time I ate food from a drive-thru  
It never happened like they say  
I think my father may be gay but I don't know  
So I burned all my shit in a bonfire  
All my teen regrets were a trip wire  
I should be everything you hate  
I should be higher now than space but I'm static

[Pre-Chorus 2]

Boys aren't even boys anymore (Huh)

[Chorus]

I don't wanna be like American kids  
I am not on drugs and I've never been  
I don't care about your party, I belong to nobody  
I don't wanna be like American kids

Drugs don't work like they did for my parents  
I'm not down with the new hit  
'Cause today I just don't get American kids

[Outro]

Liberty isn't cheap and it ain't free  
I'm a millennial, blame it all on me  
American kids  
American kids  
American kids
