

Long Stretch of Love

Lady Antebellum

You're hit then miss, you're fire and ice
You're water and whiskey burn
We kiss, we fight, make up at night
You're the blessing and the curse But I don't ever wanna break this chain
I don't ever wanna walk away
Cause I ain't ever gonna find another lover
Who'll make me feel this way Over and over and over, we say that we're through
But I come right back to you There's a long stretch of love coming down the line
Have you wrapped that won't ever roll in
Baby, you'll be mine
I'll be right here beside you
When these good times get tough
Baby we're in for a long stretch of love
You lift me up, you bring me down
You make me feel alive
You send my heart in overdrive
Every time you kill the lights Over and over and over, we play this game
Win or lose, we'll never change There's a long stretch of love coming down the line
Have you wrapped that won't ever roll in
Baby, you'll be mine
I'll be right here beside you
When these good times get tough
Baby we're in for a long stretch of love Long stretch of love
Long stretch of love
Long stretch of love Over and over and over, we play this game
Win or lose, we'll never change
There's a long stretch of love coming down the line
Have you wrapped that won't ever roll in
Baby, you'll be mine
I'll be right here beside you
When these good times get tough
Baby we're in for a long stretch of love Long stretch of love
Long stretch of love
Long stretch of love I don't ever wanna break this chain
I don't ever wanna walk away Long stretch of love
