

Scars (feat. Ryan Tedder)

Alesso

I think scars are beautiful
I think black is white
I'm stuck between the hell I'm in
And where we lie You say that this could kill you Your words cut like a knife
We are the beautiful mistake That I can't find
So I...
I don't care if it kills me tonight
Cuz I...
I'll be loving these scars for life
And I...
I don't care if it kills me tonight Cuz I...
I'll be loving these scars for life
I think we are chemicals
I think dark is light
And I know
Each and every wrong you right
You say that this could kill you
Your words cut like the knife
We are the beautiful mistake
That I can't find
And I...
I don't care if it kills me tonight
Cuz I...
I'll be loving these scars for life
And I...
I don't care if it kills me tonight
Cuz I...
I'll be loving these scars for life
I'll be loving these scars for life
