## Cypress Hill

Hello my name is Dr. Greenthumb  
I'd like to tell you just where I'm from  
In the hills where the trees grow wild with weed fields  
The fucking pigs with shields holding the blue steels  
Greenhouse effect with the weed connect  
(Doctor) DEA can't keep Greenthumb in check (Doctor!)  
HPS, God Bless the whole crop  
Please God, don't let me see no cops  
Trunkload, ready to hit the highway  
Don't let the eye in the sky fly my way  
or we gonna have big trouble, that's no shit  
Can't be growin without no permit  
but fuck that, I study the 215 trip  
That way when they come they can suck my dick  
Weed can't grow without attention  
Hello my name is Dr. Greenthumb  
(B-Real) Hello my name is Dr. Greenthumb  
(SenDog) Hello my name is Dr. Greenthumb!  
(B-Real) I'd like to tell you just where I'm from  
(SenDog) Hello my name is Dr. Greenthumb(B-Real) Hello my name is Dr. Greenthumb  
(SenDog) Hello my name is Dr. Greenthumb!  
(B-Real) I'd like to tell you just where I'm from  
(SenDog) Aiiyyo Dr. Greenthumb, come on back one time!  
(B-Real)  
People can't live without the herb manIf not they'd be drinkin and drivin and swervin  
but thanks to Dr. Greenthumb weed grow  
in the backyard or inside with hydro  
To the cush plant brushin a tangerine dream  
Tasty, blowin a fuckin smokescreen  
Cycles of weed are constantly grown  
Somebody give me the razor to cut groves  
I'd like to stop, but it feels so good  
Horny plants stinkin up my whole neighborhood  
Sticky angel, I neva wanna leave green alone  
but never ever ever got a warrant for my home  
What that funny sound knockin at the door (Open up it's the DEA!)  
Sorry Greenthumb can't talk no more  
Please don't follow me into the sun  
Hello my name is Dr. Greenthumb  
(B-Real)  
Out from the lab, no need for rehabIf I can't drive then call me a cab (taxi!)In my closet the  
weed is dried out

Like Eiht said, ain't no place to hide out  
I don't wanna buy no weed from no cop  
Get locked up and they close up my shop  
That's why I buy no weed from no one  
That's why they call me Dr. Greenthumb  
The scientific, mystical one  
Growin my crops with the rays of the sun Come one come all and see how it's done  
If you see the pigs there's no need to run  
Cause some of these pigs are down with Greenthumb  
But you never know what be the outcome  
You see the photo in the album  
The weed is growin like my erection  
Look I never told you where I was from  
Some call me Real, but I'm Dr. Greenthumb  
Dr. Greenthumb  
Doctor, your Bulova plant needs special tending to  
Doctor, we need more oxygen we need more CO2  
Doctor, Dr. Greenthumb you're needed  
Doctor, dahyahahahhh... Doctor
