

Something About Us

baLance and the Traveling Sounds

You got me love, the feeling's getting harder to hide
It's obvious, instead I keep it bottled inside
It's all because I'm waiting 'till the timing is right
Travel sights on random flights, you by my side
It's no surprise you got a man
But I see you giving mixed signals like you wanna take a chance
I'm trynna play my hand, you trynna stay true
When there's something about us I'd like to share with you
Cherish you, care for you in every way
I wanna be the reason that you smile everyday
Your style is amazing, I ain't trynna complicate things
But the way things seem I may be
Lately we've been way to close
Guilty grin when you can't say no
Maybe you need to let things go
When you're ready baby, let me know (let me know)

I might not be the right one
It might not be the right time
But there's something about us I have to say
'Cause there's something between us anyway

It might not be the right time
I might not be the right one
But there's something about us I got to do
Some kind of secret I will share with you

I need you more than anything in my life
I want you more than anything in my life
I'll miss you more than anyone in my life
I love you more than anyone in my life
