

Warrior

Yeah Yeah Yeahs

When it's missing then you want it more
It isn't right
Turning turning out the door
And back to this
Leave it like it was before
And let me out
Must've been the end of the story Giving it all
Giving it all away
You're going to wake up someone
Study it all
The wings, the crowd, your face
You're going to end up like one
Trouble at home
Travel away. You say,
"The road don't like me"
Travel away
Travel it all away
The road's going to end on me Men, they like me
'Cause I'm a warrior
A warrior
Stand on my feet
Dance the warrior
The warrior
Where would I be?
I'd be a warrior
A warrior
Now the strangers have caught on
And they're riding in the back seat
The rivers going to wash all
Yeah, the river it spoke to me
It told me I'm small
And I swallowed it down
If I make it at all
I'll make you want me Trouble at home
Travel away. You say,
"The road don't like me"
Travel it all
Travel it all away
The road's going to get on me And I'm small
The road's going to get on me
If it gets it at all
The road's going to end on me Like a warrior

A warrior
Dance the warrior
The warrior
