

Animal Kingdom Chaotic

Jesca Hoop

Why would we find the poets
I just work your computer says no
Are we all ones and zeros
I just work your computer says noOoh
You know you want it but the
Ooh
Computer says no
Ooh
You know you wanna, wanna take back control
OohI say it is possible
But your computer says no
You say it's impossible
But your dumb computer says no
Ooh
You know you wanna but the
Ooh
Computer says no
Ooh
You know you wanna, wanna take back control
Take back control
Take back control
Take back controlHuman kind wiped out by rise in drones
Take back control
Fighting killing by remote controlYou know you wanna but the drone
You know you wanna but the drone
You know you wanna but the drone
You know you wanna but the
You know you wanna but computer says no
You know you wanna but the
Take back control
Robots are the new exotic
Animal kingdom chaotic
My working jacket, hand in pocket
Oh how I learn to love the rocketOoh
You know you want it but the
Ooh
Computer says no
Ooh
You know you wanna, wanna take back control
Ooh
You know you want it but the
Ooh

Computer says no
Oooh
You know you want it wanna take back control
Take back control
Take back control
Take back control Human kind wiped out by rise in drone
Take back control
Fighting killing by remote control
Take back control Human kind wiped out by rise in drone
Take back control
Fighting killing
Fighting killing
Fighting killing
Fighting killing by remote control You know you wanna but the drone
You know you wanna but the drone
You know you wanna but the drone
