

# Feel Alive (feat. Pitbull & DJ Poet)

## Fergie

I tell truth even when I lie (yeah)  
Take a deep look in my eyes (Mr. Worldwide)Lets wake up the world, lets ride, dale  
Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel aliveWake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive  
Im so 3000 and great, theyre so 2000 and hate  
They want me to fall and fail  
Hurry up and wait, Im a pyscho on a beat  
Norman bates, Im on that bally, as well, as the fire great legs, break  
Five, six, seven, eight, Im some like a pimp, when I put my words on a track, slap  
Hussle, hussle, hard, grind, Im known for that, slap  
Hussle, business, manager, and now hes a business man  
That chico got more flips than gymnast man  
Who is the man? chip chip bang  
Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive  
Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive  
Lets get it like it, automatic  
Space invader, dancefloor operator  
Supersonic, elevator, next level, upgrader  
Take you higher, margin later, right now not later  
I feel alive baby, I feel alive in this club  
I feel alive baby, I feel alive in this club  
I feel alive baby, I feel alive in this club  
I feel alive, feel alive  
Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel aliveI be going faster, and faster  
Better make it last, make it last yeah  
I be going faster, and faster  
Better make it last, make it last now baby  
Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel aliveWake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel aliveI feel alive  
I feel alive

I feel alive now I feel great
