

On My Way to You

Cody Johnson

[Verse 1]

All the boats I've missed
All the hell I've caused
All the lips I've kissed
All the love I've lost
I got kicked around
I've been black and blue
On my way to you

[Verse 2]

All the stars I've seen
All the songs I've sung
All the beers I've drank
All the damage done
I was just passin' time
Kinda just passin' through
On my way to you

[Chorus]

Every curve, every ditch
Every turn, every bridge
I left behind me up in smoke
Every fork in the road
It was all worth the while
When I finally saw your smile
Every highway, every heartbreak
Every mountain, every mile

[Verse 3]

I got the radio up
Sun is going down
I'll take a left at the bank
And I'll head straight through town
So baby, put on that dress
A little sweet perfume
'Cause I'm on my way to you

[Instrumental Break]

[Chorus]

Yeah, every curve, every ditch
Every turn, every bridge
I left behind me up in smoke
Every fork in the road
It was all worth the while
When I finally saw your smile
Every highway, every heartbreak
Every mountain, every mile

[Verse 4]

All the boats I've missed
All the hell I've caused
All the lips I've kissed
All the love I've lost
I thank God for that
I guess he always knew
I was on my way to you

[Outro]

On my way to you
On my way to you
