

# Shade

Maren Morris

[Verse 1]

I was mixed up in the shadows casting over me  
Blending in the background of someone else's dream  
Then I caught your light, then I caught your glow  
Didn't dim my shine, but you changed my tone  
Now I'm illuminated and you're all I see

[Chorus]

Baby, baby, you're my color, custom made  
Think I finally discovered you're my perfect shade

[Verse 2]

I stand out like neon on the darkest night  
Everything looks clearer looking in your eyes  
It could be the fall, it could be the spring  
Baby, you look good with everything  
I've tried other designs, and boy, you fit just right

[Chorus]

Baby, baby, you're my color, custom made  
Think I finally discovered you're my perfect shade

[Bridge]

Shades of green, shades of gold

I don't need another rainbow

Shades of me, shades of you

You're the prism that I see through

[Chorus]

Baby, baby, you're my color, custom made

Think I finally discovered you're my perfect shade

[Outro]

You're my perfect shade, yeah

Hey yeah

Hey, hey, hey yeah

Whoa oh oh oh, whoa, mmm
