

# Big White Bed

Guster

[Verse: Ryan Miller]

Everybody that you've ever known is gonna die  
Don't cry, there's a big white bed up in heaven  
There's nothing you can say or do that's gonna save your life  
It's all right, there's a big white bed up in heaven

If the plane you're sitting in disintegrates into the sky  
That's life, there's a big white bed up in heaven  
Didn't do all things you thought you'd do before you die?  
That's fine, there'll still be time up in heaven
