

# Burning Man (feat. Brothers Osborne)

[Dierks Bentley](#)

Half your life you struggle  
Half your life you fly  
Half your life makin' trouble  
Half your life makin' it right  
One day I'm the exception  
Most days I'm just like most  
Some days I'm headed in the right direction  
And some days I ain't even close I'm a little bit steady but still little bit rollin' stone  
I'm a little bit heaven but still a little bit flesh and bone  
Little found, little don't know here I am  
I'm a little bit holy water but still a little bit burning man  
Burning man  
Yeah I always look for highway  
I just don't run it as fast  
I'm still go wherever the wind blows me  
But I always find my way back  
And I still don't get it right sometimes  
And I just don't it as wrong  
I still go a little bit crazy sometimes, yeah  
But now I don't stay here as long I'm a little bit steady but still little bit rollin' stone  
I'm a little bit heaven but still a little bit flesh and bone  
Little found, little don't know here I am  
I'm a little bit holy water but still a little bit burning man  
Burning man  
Still just a burn, burn, burning man  
Just a burning man  
Maybe I'll go to the desert  
Find myself in the Joshua Trees  
If we pass in the night then just hand me a lighter  
Tell me you burn just like me I'm a little bit steady but still little bit rollin' stone  
I'm a little bit heaven but still a little bit flesh and bone  
Little found, little don't know here I am  
I'm a little bit holy water but still a little bit burning man  
Burning man  
Still just a burn, burn, burning man  
Just a burning man Burning man
