

# Butter (feat. DJ Lucci)

## Sage the Gemini

You ain't fuck with me in school, but you do now, like it's all cool, but I knew that  
You flaked on me for old dude, now he on rap facts and it's cool, 'cause I knew that (Yeah,  
yeah, yeah)Hear this and hit the playback  
Bounce to Fairfield in a Maybach  
And tell them niggas who said that I wasn't where  
I said I was from, oh wait, they ain't say that  
AK SQ, yeah my home dawg  
I was in the field like I was looking for a home run  
Old haters, let the new ones hold some  
Your new freak, that's my old stuff  
I got old beef that just rolls up  
Face to face, they 'ont know nut'in'  
Feel like I'm speakin' loud with Elsa, how you froze up  
Focused on the yeast, get your dough up  
You ain't fuck with me in school, but you do now, like it's all cool, but I knew that (but I knew)  
You flaked on me for old dude, now he on rap facts and it's cool 'cause I knew that. (ee-yeah)  
And now, all a sudden you a bird 'cause you see me in a Coupe, but it's cool 'cause I knew that  
(whoa)  
And now you want to wait until you lost, saw yo' ass just to come, double back, but you blew  
that (yeah, yeah, yeah)I'm on the phone with Steve B right now  
I only rock with olda' niggas, bring the heat down  
I'm on the the line with Colleine right now,  
he said "calm down, leave it up to us to hold the streets down  
You do this rap shit and don't fucking fail"  
Free Turtle, he gon' show you how you shouldn't tell  
I know the block dreaming 'bout you coming home on bail  
To show these young niggas how they really frail  
I'm so good in the hood, new nigga, you should get it understood, yeah yeah yeah  
And if you really ain't new, then it's part of the song shouldn't change yo' mood, yeah yeah yeah  
You ain't fuck with me in school, but you do now, like it's all cool, but I knew that (but I knew)  
You flaked on me for old dude, now he on rap facts and its cool 'cause I knew that (ee-yeah)  
And now, all a sudden you a bird 'cause you see me in a Coupe, but it's cool 'cause I knew that  
(whoa)  
And now you want to wait until you lost, saw your ass just to come, double back, but you blew  
that (yeah yeah yeah)
