

# Take Over Control (Radio Edit) [feat. Eva Simons]

[Afrojack](#)

Take Over Control  
Afrojack I want you to take over control  
Take take take take over control  
Plug it in and turn me on Let's go take a ride in your car  
I will take the passenger seat  
Baby, we don't have to go far  
Unless you wanna show  
Me a lovely place out of town  
Where you feel most at ease  
Well you are the one that I like  
Always will be I think it's time to let you know  
Know the way I feel when you take hold  
And You set me free, my body's yours  
It feels the best when you're involved I want you to take over control  
Plug it in and turn me on Music## I want you to take over control  
Plug it in and turn me on Baby, baby, can't you see?  
That I'm giving all of me  
So, it's up to you now  
We could let time pass away  
I'll make an excuse to play  
But, it's up to you now Just wanna fulfill your needs  
While you're taking over me  
So, what do you want now?  
Take a picture, make a show  
Cause nobody has to know  
All the ways that we get down  
I want you to take over control  
Take over control  
Take take take take over control  
Oh oh oh, I want you to take over control  
Plug it in and turn me on Oh, oh whoa oh  
Oh, oh whoa ooh oh  
Plug it in and turn me on  
Oh, oh whoa oh  
Oh, oh whoa ooh oh  
Plug it in and turn me on I want you to take over control  
Take over control  
Take take take take over control  
Oh oh oh, I want you to take over control  
Plug it in and turn me on Oh, oh whoa oh

Oh, oh whoa ooh oh  
Plug it in and turn me on I want you to take over control  
Plug it in and turn me on
