

This Is Love (Blk Rse Remix) [feat. Loren Allred]

Hardwell & Kaaze

From all the highest heights, to the deepest lows
I keep on trying to find, someone to call my own
But when the stars align, they put us together
And it feels alright, it couldn't be better
And I won't never let you go, I know
This is love
I built it from the start, yeah baby this is love
I build it from the start, this is love
This is love
This is Love
This is love
This is love
When the stars align, they put us together
And it feels alright, it couldn't be better
And I won't never let you go, I know
This is love
I built it from the start, yeah baby this is love
I build it from the start, this is love
This is love
This is love
