

# Alone

## Eddie from Ohio

Your beautiful boat pulls into my harbor  
You drop your anchor right next to my dock  
You bring the ocean, and make a commotion  
Your wake makes the other boats rock  
You drop your goods, you leave your freight  
Then you sail off and leave me to wait

But if you love me, leave me alone  
Don't just love me then leave me alone  
Don't knock, don't ring, don't write, don't phone  
If you love me then leave me  
If you love me then leave me  
If you love me then leave me alone

Your beautiful bus pulls into my station  
Blowin' fumes right up in my face  
You dump the gentry, and not very gently  
Making noise and invading my space  
You made your stop, you left some folk  
Then you're off in a diesel cloud of smoke

But if you love me, leave me alone  
Don't just love me then leave me alone  
Don't knock, don't ring, don't write, don't phone  
If you love me then leave me  
If you love me then leave me  
If you love me then leave me alone

Would it kill you to stay, would it kill you to care  
Where do you have to go  
Why don't you take me there  
You're asses and elbows and off like a shot  
It's the truth, it's a crime, it's a shame  
You know you'd never leave  
If you never came

Now you're an angler, throwin' your net  
Whatever you want, that's what you get  
I'm now your catch, I'm in your sack  
But if you love what brought me here

You'll throw me back

If you love me, leave me alone  
Don't just love me then leave me alone  
Don't knock, don't ring, don't write, don't phone  
If you love me then leave me  
If you love me then leave me  
If you love me then leave me  
If you love me then leave me  
If you love me then leave me then  
Love me then leave me then  
Love me then leave me then  
Love me then leave me then  
Love me, then leave me  
Alone
