????? ? ? ? ? ? ? ? ? : ??????????[Verse 1: B-Real]

You're lookin' at the last of a dyin' breed

Weeded up, please, speed it up

Sittin' in the Cali sun heated up

Inked arm needled up

Rocket style, Don Cheadle'd up

I put the fear of God in people, what

People lookin' at me sideways like I'm on the verge

Like them on the purp that's blazed, I don't say a word

You don't wanna follow me, son

You ain't got the nerve

You just wanna swerve with a little herb, absurd

Got you paranoid in the paragraph when I paraphrase

Got a pair of Jordan's dancin' on your fuckin' face

Paralyzed, see the paranormal paratroops

Summoned by the Grandmaster as he prepares to loose

Temple doors open up, smoke billows out

Now you hoping what, for mercy? Get your soul brittled out

From another hood, you ain't really fuckin' with our brotherhood

Even if another could, I wish a motherfucker would

Clip it up or sip it up

Listen, I prefer to trip it up

Chem skippy ya'll bitter fucks

I can take a bigger chunk

And if I'm callin' dark figures up

Don't make a move, they light triggers up

Muggs, cut 'em up, chka-chka, what, huh

(This is for the-)

[Chorus: Alaa Fifty]

[Verse 2: Sen Dog]

Ever heard of me?

Wicked as you ever seen

Heavy on the throttle

Smoke when we hit the scene, rollin' unseen

Under the cover of the night

Spirit flying free, niggas higher than a kite

You got nothing on me [which/witch nomad?]

De la clan goes way back to the Cro-Mags

Run together, unbreakable bloodline

Too much to fuck with when all the brothers combine

Everything you ever heard of is not a myth

Crazy dogs you don't ever wanna deal with

Which smell? It's the hash that we left around

Smoke a whole pound when I feel myself comin' down

Live how I wanna live and answer to no one

Send my love through the ways of the shogun

Think again before you try to come and get me

Or you'll be shot up by a gang of gypsies (shot)[Chorus: Alaa Fifty & Sadat]
