

Sheriff You Want To

Luke Combs

[Verse 1]

Well me and my buddies went sneakin' out
About 2AM to catch us some trout
That's when I saw that car pull up
He said boys I don't care that you're way out here
But you look a little young for all that beer
And when he got close, I couldn't tell who that was
He said I ain't the cops, I ain't your parents
Boys you're dealin' with the county sheriff

[Chorus]

So I said we can share if you want to
So buddy won't you?
Take a sip and help us finish shit tonight
I ain't givin' you an attitude
But I can tell you're in a bad mood
Just a little bit will have you feelin' just right
So dude, we can share if you want to

[Verse 2]

Me and my boys sneakin' out again
A quick turnaround it was the next weekend
We had the single cab all filled up with smoke
He came up quick and tapped on the glass
I dropped that joint and sat up real fast
And when I saw who it was, damn I almost choked
Well it wasn't the cops, it wasn't our parents
It was our old friend the county sheriff

[Chorus]

So I said we can share if you want to
So buddy won't you?
Take a hit and help us finish shit tonight
I ain't givin' you an attitude
But I can tell you're in a bad mood
Just a little bit will have you feelin' just right
So dude, we can share if you want to

[Bridge]

Well we got off both times, even though we crossed that line

And you can too, 'cause all you have to do is say

[Chorus]

We can share if you want to
So buddy won't you?
Take a hit and help us finish shit tonight
I ain't givin' you an attitude
But I can tell you're in a bad mood
Just a little bit will have you feelin' just right
So dude, we can share if you want to

[Outro]

We can share if you want to
