

Laughing Down Crying

Daryl Hall

So many times I've wondered

About the way to go

Should I believe in my past life

Or should I stay solo

Watching the world roll around me

You make it rise and fall

Never known anyone like you

No one at all

I need some time

Time to unwind

Solitary mind,

You got me laughing down crying

I need to know

Which face to show

Can't you see my life's out of line?

You got me laughing down crying

(Laughing down crying)

You got me laughing down

(Laughing down crying)

You got me laughing down crying

(Laughing down crying)

You got me laughing down

You're one of a kind

The way that I find you laugh

I'm sure you know

Should I be trying to match you

But I'm unique on my own

Watching it all swirl around me

It gives me vertigo

No one else will understand you

No one at all

I need some time

Time to unwind

Solitary mind,

You got me laughing down crying

I need to know

Which face to show

Can't you see my life's out of line?

You got me laughing down crying

(Laughing down crying)

You got me laughing down

(Laughing down crying)

You got me laughing down crying

(Laughing down crying)

You got me laughing down

You take me higher

Then lower down

You take me higher

You got me laughing down

I want to know

Which face to show

Can't you see my life's out of line?

You got me laughing down crying

You got me laughing down

You got me laughing down crying

Laughing down

You got me laughing down crying

Laughing down

You got me laughing down crying

Laughing down
