

# Daydreamer

## Bipolar Sunshine

[Intro (echo)]

Dark, dark

[Verse 1]

Victory, may lay in the fall  
Silent seas, howling dogs  
You & me, cut from a different cloth  
Concrete love  
Oh, let me tell ya

[Pre-Chorus]

And I'm gonna take this one step further  
Let's explore, don't stick to who we know  
We're gonna take this one step further  
I found the truth, the stars of you

[Chorus]

So daydreamer  
Run in the dark  
Skiin' in the fields  
Ooh, let's get lost  
Buy a ticket to Mars  
Ooh show me the way  
And I'll show us there

[Verse 2]

When blossom leaves, no camouflage  
Let colours bleed, for a soul to see  
Hey, you're comin' with me  
Whether you like it or not  
1, 2, 3!

[Pre-Chorus]

[Chorus]

[Bridge]

What you running for, running for  
What you running for, what you running for, running for  
What you running for  
Who you running 'round for? (x3)

Run for, run...

[Chorus]

[Outro]

(What you running for, running for

What you running for?)

So daydreamer

(What you running for, running for

What you running for?)

Daydreamer

(What you running for, running for

What you running for?)

So daydreamer

(What you running for?)

(What you running for?)

Daydreamer
