For You

Trevor Daniel

For you

Baby, I would die for you

I'ma work my whole life for you

No other by my side but you

Tryna roll, always see your face in the morning

You can wear my shirt when it's cold if you wanna

Still got me feeling like the very first summer

That I saw ya, and now I don't wanna live without you

Baby, call me up when you're alone

I just wanna hear you talk

You've been on my mind for way too long

Up all night thinking 'bout you

I'll give you all my love 'cause you're all I want

I wanna give you all of me

And when I saw those eyes, I knew you were the one

When I saw those eyes, baby, I could barely breathe

For you

Baby, I would die for you

I'ma work my whole life for you

No other by my side but you

Tryna roll, always see your face in the morning

You can wear my shirt when it's cold if you wanna

Still got me feeling like the very first summer

That I saw ya, and now I don't wanna live without you

Baby, call me up when you're alone

I just wanna hear you talk

You've been on my mind for way too long

Up all night thinking 'bout you

I'll give you all my love 'cause you're all I want

I wanna give you all of me

And when I saw those eyes, I knew you were the one

When I saw those eyes, baby, I could barely breathe

Oh, oh, oh, oh

Baby, I could barely breathe

Oh, oh, oh, oh

Tryna roll, always see your face in the morning

You can wear my shirt when it's cold if you wanna

Still got me feeling like the very first summer

That I saw ya, and now I don't wanna live without you

Oh, oh, oh, oh

Oh, oh, oh, oh
