

There Will Be No Rain

Far East Movement

I can built it in the air today
So they saw a smile on your face
I know I know cause when I'm with you
I know, I know there will be no rain
There will be no rain
There will be no rain
Only sunshine
There will be no rain, no no
Cause when I'm with you
I know, I know there will be no rain
Yeah

It was like butterflies, uuh that feeling
Like sunshine, when a little rain can't kill it
You go my summertime now, yeah that's chillin'
Swimsuit, backyard
Damn, she's grillin'! Cooler than the breeze
Girl, got mee!

Groove it to the beat, palm tree
Giving me the keys, anywhere you please
There in fantasy, we'd never wanna leave
I got my mind up in the clouds
It's easy cause you're good to me
And it's only getting brighter now
Cause I know you're so good for me
I got my mind up in the clouds
It's easy cause you're good to me
And it's only getting brighter now
Cause I know you're so good for me

I can built it in the air today
So they saw a smile on your face
I know the weather when I'm with you
I know, I know there will be no rain
There will be no rain
There will be no rain
Only sunshine
There will be no rain, no no
'Cause I know the weather when I'm with you

I know, I know there will be no rain
