

See You Again

Elle King

[Verse 1]

You were standing there
Fire in your eyes
As you held me in
Said "Sorry I didn't write"
We've got 7 days
'Till we say goodbye
Back to separate ways
I'll miss you more this time

[Chorus]

So won't you stay
'Till the morning
I've been frozen since that night you sang with me
One more day
For you to hold me
Cause I don't know when I'll see you again

[Verse 2]

How was I to guess
I'd still be on your mind
Enough to bring you here
To prove I wasn't right
We don't need to know
Future isn't ours
When we both let go
I'll hear you in the bars

[Chorus]

So won't you stay
'Till the morning
I've been frozen since that night you sang with me
One more day
For you to hold me
Cause I don't know when I'll see you again
